

Laser Tools Racing 45 Degree Quick Lock Socket Rail

Laser Tools Racing magnetic socket rail, holds ten standard 1/2" drive sockets with 45 degree quick lock mechanism. Powerful rare earth neodymium magnets hold the socket rail securely on any ferrous metal surface and there is a soft, non-scratch backing for protection. The rail is manufactured from lightweight anodized aluminium. A smart, efficient way to keep sockets organized and ready to use.

Additional Information

- Magnetic rail holds 10 standard 1/2"D sockets.
- 'Strong rare earth (NdFeB) magnets for secure holding with scratch free soft backing for surface protection.
- Manufactured from anodised aluminium. Laser Tools Racing brand. Rail dimensions: 340 x 28mm.
