

LTR Cassette Lockring Tool

For the installation and removal of the lockring on both Shimano HG and SRAM cassettes, when used together with a 24mm spanner or socket and a cassette holding tool or chain whip. It can also be used on Centerlock brake discs that use a 12-spline (Ø23.4mm) locking.

Additional Information

- Removal tool to fit 7 to 12 speed Shimano HG & SRAM cassette lockrings.
- Also suitable for use on Shimano centre lock brake rotor lockrings.
- For use with a 24mm spanner, please see Laser Part No. 1567.
- For use with a Cassette Holding Tool, please see Laser Part No. 8185
- Manufactured from chrome molybdenum with a black finish.
