

Hose Clip Pliers - for Single/Double Ear Clips

Heavy duty hose clip pliers suitable for fitting medium sized closed and open ear-type pipe O-clips. The retraction bar has two settings which allow for pre-tensioning and definite clamping, with the mechanical lock preventing damage to the collar when tightening. O-type hose clips are used widely on cooling, fuel and air lines, together with other low to medium pressure hydraulic applications.

Additional Information

- For fitting 'O' style, Oetiker, single & twin ear hose clips.
- Length: 270mm.
- The design allows minimum clamping effort & the mechanical lock prevents damage to the collar.
- PVC dipped handles for comfort.
- Suitable for use with Connect double ear hose clip range, please see Part Nos. 30815 to 30821.
